PROFESSIONAL SUMMARY

UX / Product Designer with 5+ years of experience designing enterprise applications, workflow-driven products, and web experiences. Experienced in owning the end-to-end UX process—from user and stakeholder research, information architecture, and user flows to wireframing, prototyping, visual design, and developer handoff. Worked on complex enterprise products including London Stock Exchange Group (LSEG) and Insight Global, with a focus on simplifying workflows, reducing information complexity, and creating intuitive user experiences. Proficient in Figma, design systems, responsive design, and Agile collaboration, with working knowledge of HTML, CSS, JavaScript.

Enterprise Domains: Financial Services, HRTech, Staffing, Workflow Automation, Web Applications.

CORE SKILLS

- **UX Design:** User Research, User Personas, User Journey Mapping, Information Architecture, User Flows, Wireframing, Interactive Prototyping, Usability Testing, Interaction Design, UX Strategy.
- **UI Design:** Visual Design, Responsive Design, Design Systems, Component Libraries, Accessibility, Design Handoff.
- **AI-Assisted Design:** AI-Assisted Research Synthesis, Ideation, UX Writing, Rapid Prototyping, Prompt Engineering.
- **Tools:** Figma, Adobe XD, Sketch, Adobe Illustrator, Adobe Photoshop.
- **Front-End:** HTML, CSS, Bootstrap, JavaScript, React (Learning).
- **Methodologies:** Design Thinking, Agile (Scrum), Cross-Functional Collaboration, Stakeholder Management.

PROFESSIONAL EXPERIENCE

Freelance

UI/UX Designer & Front-end Developer

Nov 2024 – Present

- Delivered end-to-end UX/UI design and front-end development solutions for client projects, including **Pashushala** and **Jnex Incorporation**, transforming business requirements into intuitive, responsive, and user-centered digital experiences.
- Conducted user research, defined information architecture, created user flows, wireframes, interactive prototypes, and high-fidelity interfaces in Figma, ensuring seamless collaboration from concept to implementation.
- Leveraged AI-assisted workflows for research synthesis, ideation, UX writing, rapid prototyping, and front-end development to accelerate design iterations while maintaining usability, accessibility, and design quality.
- Collaborated directly with clients to gather requirements, present design concepts, incorporate stakeholder feedback, and deliver scalable, developer-ready solutions with clean HTML, CSS, JavaScript, and Bootstrap implementation.

Infocenter

Consultant – UX/UI

Jul 2023 – Oct 2024

- Led end-to-end UX design for enterprise applications, translating complex business requirements into intuitive workflows and scalable digital experiences across **LSEG Employee Portal** and **Insight Global ERP** projects.

- Conducted **user and stakeholder interviews** to identify usability issues, understand business requirements, and inform information architecture, user flows, wireframes, and interaction design.
- Redesigned the **LSEG employee portal**, simplifying information hierarchy and navigation by prioritizing frequently used actions and organizing secondary content into logical categories.
- Designed ERP workflows and interfaces for **Insight Global**, balancing complex business processes, data requirements, and usability across enterprise web experiences.
- Created high-fidelity UI designs, reusable components, and design patterns in **Figma**, collaborating with developers and stakeholders through design reviews, iteration, and developer handoff.
- Coordinated with cross-functional teams and senior stakeholders to align UX decisions with business requirements, technical constraints, accessibility, responsive design, and implementation feasibility.

Vedh Technologies

UX Strategist

Jan 2021 – Jun 2023

- Designed end-to-end UX/UI experiences for web and business applications, translating client requirements and user needs into structured, intuitive digital solutions.
- Conducted user and stakeholder discussions to understand requirements, identify pain points, and inform **information architecture, user flows, wireframes, and interaction design**.
- Created interactive prototypes and high-fidelity interfaces using **Figma and Adobe XD**, iterating designs based on feedback and usability considerations.
- Developed reusable UI components and design patterns to improve consistency across digital products and support efficient developer handoff.
- Collaborated with developers and business stakeholders throughout the design lifecycle, balancing user needs, business objectives, technical constraints, and responsive design requirements.

Tech Mahindra

Senior Associate

Feb 2020 – Dec 2020

- Delivered customer support across digital platforms, identifying user pain points, analysing recurring issues, and documenting actionable insights to improve the overall customer experience.
- Collaborated with cross-functional teams to resolve customer issues, ensuring SLA compliance while strengthening problem-solving, communication, and stakeholder collaboration skills.

Mahalaxmi Enterprises

Sales Executive

Jan 2018 – Jan 2020

- Managed end-to-end sales activities by understanding customer requirements, presenting tailored solutions, and building strong client relationships through effective stakeholder communication.

EDUCATION

Master of Business Administration (MBA)

Operations Management (Major) | Entrepreneurship Management (Minor)

Institute of Management Development & Research (IMDR), Pune.

Bachelor of Engineering

Mechanical Engineering

Savitribai Phule Pune University, Pune.

CERTIFICATIONS

User Experience (UX) Design

Seven Mentors Training Institute, Pune.

Diploma in Product Design & Analysis

CADD Centre Training Services, Pune.
